EXERCISE

Add A, AN, or THE when appropriate.

When planting ___a___ garden, you must always focus on three things: watering ___the___ plants; trimming ___the___ plants; and, using some sort of ___a___ fertilizer to help ___the___ plants to grow. Trimming should be done when ___the___ plant is infected by ___a___ disease, has been affected by ___the___ extremes of cold or hot weather, or shows any sign of discoloration in ___the___ leaves. Likewise, plants benefit from fertilizer. You might use ___an___ artificial fertilizer. Or, you might even use composted materials. Remember: ___The___ plants need sun, especially if ___the___ plants are outdoor plants. And, finally, make sure ___the___ plants have plenty of water. Although make ___a___ mental note that some plants need more water than others.
